PLAY TEACHES KIDS TO:

- Use their imagination, improvise, think flexibly and explore new options.
- Make appropriate choices from among many possibilities.
- Cooperate with other children in the creation of mutually satisfying projects.
- Work through their feelings in creative, nondestructive ways.
- Become more aware of their own real interests, without being distracted with other possibilities - to say "yes" and "no".
- Use something, such as a dramatic action, a word or a toy, to represent something else.
- See themselves as competent and interesting people with useful skills and good ideas.
